ABSTRACT

This report presents detailed information concerning the member institutions of the United Negro College Fund (UNCF), an organization which includes 39 privately supported historically black colleges and universities in the United States. Tables, graphs, and narrative are organized into sections on enrollment, admissions, degrees, faculty and staff, student financial aid, college costs, institutional finances, endowment, and computer hardware and software. Highlights of the data include: enrollment at all UNCF institutions in 1996 was 54,317, 28 percent greater than in 1986; nearly 95 percent of students attending College Fund member institutions are African American; nearly three-quarters of UNCF students come from the Southeast; member institutions awarded degrees to 7,052 students in 1995-96, an increase of 43 percent over 1989-90; the average faculty salary at UNCF institutions continues to be lower than that of faculty at similar private colleges and universities; more than 90 percent of students received some form of financial aid in Fall; the average cost of attending a College Fund institution in 1995-96 was $12,575, substantially lower than that at all private colleges nationwide; and the total endowment for member institutions in 1995-96 was $635.4 million, almost triple that of 10 years ago. Thirty-two appendices provide tables presenting additional data. (DB)

ACKNOWLEDGMENTS

We wish to thank a number of people for their assistance in preparing this 1997 edition of The College Fund/UNCF Statistical Report. The registrars, administrators, and institutional research personnel at the member institutions supplied most of the data as they responded to an extensive questionnaire. We wish to thank Ms. Cherreka Montgomery of the Frederick D. Patterson Research Institute for her efforts in collecting missing data from the member institutions and Mr. Michael Fraser of Information Technology for designing the cover on the report. Finally, we want to acknowledge the extraordinary contributions of Ms. Heather Herbert, who passed away on January 1, 1998. Her work on this project as well as all others since the inception of the Frederick D. Patterson Research Institute was invaluable. We miss her greatly.

INTRODUCTION

The 1997 College Fund/UNCF Statistical Report presents detailed information concerning the member institutions of The College Fund in 1996. Data for the report were generally obtained from the annual College Fund Questionnaire completed by college administrators during the 1996-97 academic year. In a few instances, the colleges were unable to supply data; in these cases, the missing data were resolved by making direct phone calls to the colleges. Contextual data were primarily obtained from *The African American Education Data Book Volume I: Higher and Adult Education*. The report uses the same organizational format that has been used in recent years and offers some interpretation concerning yearly trends.

The member colleges of the United Negro College Fund are a part of a group of 103 historically black colleges and universities (HBCUs). Together, the College Fund institutions constitute only about two percent of all four-year colleges and universities in the United States, but enroll more than seven percent of all African Americans attending four-year colleges and universities nationwide. Of the 48 privately supported HBCUs, 39 are member institutions of the United Negro College Fund.

With few exceptions, most College Fund member institutions were founded by religious societies from the North during the 35-year period following the Civil War. All College Fund institutions are accredited by appropriate regional accrediting associations. Located principally in the Southeast and in eastern Texas, these institutions operate with a variety of organizational structures and program offerings.

The College Fund was founded in 1944 by Dr. Frederick D. Patterson (of Tuskegee Institute) and 27 other college presidents who were convinced that private, historically black colleges should join together for their mutual benefit. Although its major focus is still its fund-raising efforts for the benefit of the member colleges and universities, the Frederick D. Patterson Institute conducts research on the whole range of issues affecting the education of African Americans at all levels, from preschool through adult.

The College Fund member institutions have made great contributions to the education of minority students over the past century. The list of distinguished graduates from College Fund colleges includes civil rights leaders, political leaders, religious leaders, educators, scientists, lawyers, and physicians.

HIGHLIGHTS FROM THE 1997 COLLEGE FUND/UNCF STATISTICAL REPORT

√ Enrollment at member colleges and universities has increased 28% in the past decade. In Fall 1996, College Fund institutions enrolled 54,317 students.

√ College Fund colleges and universities comprise 2% of four-year colleges and universities nationwide, and more than 7% of African Americans attending four-year undergraduate colleges and universities are enrolled at College Fund institutions.

√ Nearly 95% of students attending College Fund member institutions are African American, while 1.5% are White, 2.1% are resident aliens and less than 1% are Hispanic, Asian or of other ethnicity.

√ Approximately 60% of students attending The College Fund member colleges and universities are female. Among African American students enrolled in colleges and universities nationwide, 62% are female.

√ In Fall 1996, 2,701 students transferred to College Fund colleges and universities from other institutions. Comparable numbers transferred from two-year institutions and four-year institutions. Among students transferring from four-year institutions, 548 were from predominantly White colleges and 473 were from predominantly Black colleges.

√ Nearly three-quarters of students attending The College Fund's member colleges and universities hail from the Southeastern United States. Nonetheless, more than 300 students came from each of the following large cities outside the Southeast: Los Angeles, Chicago, Detroit, New York City, and Philadelphia.

√ More than 61,000 applications were received for admission to the entering class of Fall 1996. Approximately 65% of applicants were admitted, and 34% of admitted applicants subsequently enrolled.

√ Member colleges and universities awarded degrees to 7,052 students in 1995-96, an increase of 43% over the number of degrees awarded in 1989-90.

√ Average salaries of College Fund faculty are lower than the average salaries of faculty with the same rank at other similar private colleges and universities.

√ More than 90% of students attending College Fund member colleges and universities receive some form of financial aid. More than three-quarters of all College Fund students receive Stafford Loans. The average Stafford Loan amount was $3,461 in 1995-96.

√ The average cost of attending a College Fund college or university in 1995-96 was $12,575, substantially lower than the average of $20,361 at all private colleges nationwide. The average tuition at member colleges and universities was $6,355, compared to an average of $12,823 at private colleges across the United States.

√ The total endowment for all member colleges and universities, combined, in 1995-96 was $636.4 million. The total endowment has nearly tripled in the past decade.

ENROLLMENT

Member institutions of The College Fund have made impressive enrollment gains during the past decade. Table 1 shows that the Fall 1996 enrollment of 54,317 students represents a 27.5% increase over the Fall 1986 enrollment of 42,613. The number of College Fund colleges and universities declined from 41 in 1995 to 39 in 1996. Nonetheless, the total enrollment of 54,317 in the 39 institutions is only slightly less than the 54,388 students attending the 41 colleges in 1995. Twenty-two of the 39 member colleges and universities increased their enrollments between 1995 and 1996. While increases in enrollment were generally modest, several institutions showed large gains. For the third consecutive year, Benedict College increased its enrollment by 15% or more. Enrollment between 1995 and 1996 increased by more than 10% at Clark-Atlanta University (14%), Lane College (16%), Paine College (13%) and Stillman College (20%).

Table 1
Trends in Total Enrollment at College Fund Member Institutions
1986 - 1996

	Enrollment	Percent Increase Over Previous Year	Percent Increase Since 1986
1986	42,613	----	----
1987	43,984	3.2%	3.2%
1988	45,987	4.6%	7.9%
1989	48,396	5.2%	13.6%
1990	49,816	2.9%	16.9%
1991	51,181	2.0%	20.1%
1992	53,363	4.2%	25.2%
1993	54,730	2.6%	28.4%
1994	54,284	-0.8%	27.4%
1995	54,388	0.2%	27.6%
1996	54,317	-0.1%	27.5%

The enrollment for each member institution is presented in Appendix A: Fall Headcount Enrollment at College Fund colleges and universities. Table 2 shows that fourteen College Fund colleges and universities enrolled more than 1,500 students in 1996.

Bethune-Cookman College	2,335
Shaw University	2,262
Morris Brown College	2,153
Benedict College	2,138
Spelman College	1,899
Oakwood College	1,666
Saint Augustine's College	1,584
Dillard University	1,561
Florida Memorial College	1,561
Virginia Union University	1,551

The following data (see Table 3), taken from Volume I of *The African American Education Data Book*, show the number of African Americans enrolled at all American undergraduate colleges and universities and the number enrolled at undergraduate historically black colleges and universities (HBCUs) in 1984, 1990 and 1995. While College Fund colleges and universities are included among the HBCUs, the HBCUs overall also include institutions that are not four-year colleges. The percent of African American college students in the United States who are attending HBCUs has hovered between 15% and 17% over the past decade. The third row in the table includes just the African American students who are enrolled as students in four-year undergraduate colleges and universities. Approximately 95% of the students attending College Fund colleges and universities are African American and they represent about 7.2% of African American undergraduate students attending four-year colleges and universities in the United States.

Extracted from *The African American Education Data Book: Higher and Adult Education* - Volume 1, pp. 56 - 57

FULL-TIME AND PART-TIME STUDENTS

Appendix B shows that virtually all of the students enrolled in College Fund institutions in 1996 were attending full-time. Overall, 92% of students attending College Fund colleges and universities were attending full-time. The percentage of students attending full-time ranged from a low of 70% at the Interdenominational Theological Center (a post-baccalaureate institution) to a high of 99% at Barber-Scotia College. The percent of full-time students exceeded 90% in all but ten of the College Fund colleges and universities.

CLASS LEVELS

Across all 39 member colleges and universities, freshmen comprised 37% of the total enrollment of 54,317. When only undergraduate students are considered, the percentage who are freshmen rises to 42%. This percent is higher than the average of about 36% freshmen across all institutions submitting undergraduate enrollment data to the Integrated Postsecondary Education Data System (IPEDS) Fall Enrollment Survey for 1996 (see Table 4). Appendix C shows that 20% of the undergraduate students at College Fund member colleges and universities are sophomores, 18% are juniors and 19% are seniors.

Table 4
Average Undergraduate Enrollment by Class Level
Across 2,288 Institutions Submitting Data to IPEDS, 1996

Class Level	Full-Time	Part-Time	Total	Percent
New Freshmen	501	136	637	
Other First Year	324	308	632	
All First Year	825	444	1,269	36%
Second Year	494	275	769	22%
Third Year	550	126	676	19%
Fourth Year & Beyond	619	219	838	24%
Total	2,488	1,064	3,552	

Several College Fund institutions, including Clark-Atlanta University, Fisk University, the Interdenominational Theological Center, Livingstone College, Tuskegee University, Virginia Union University and Xavier University, offer graduate courses and degree programs. In Fall 1996, 2,561 graduate students were enrolled at these institutions, representing 5% of the total number of students enrolled in College Fund member colleges and universities.

RACE/ETHNIC/CITIZENSHIP BACKGROUND

Nearly 95% of students attending member colleges and universities are African American, while 1.5% are White, 2.1% are resident aliens and less than 1% Hispanic, Asian or of another ethnicity. The enrollment for each college or university by race/ethnicity is presented in Appendix D. While member colleges and universities serve primarily African Americans, several have reasonably large representations of students of other backgrounds. For example, more than 50 White students are enrolled at each of the following institutions: Clark-Atlanta University, Shaw University, Tuskegee University and Xavier University. More than 50 Hispanic students are enrolled at Florida Memorial College, Huston-Tillotson College, and Tuskegee University. Xavier University enrolls 76 Asian students, and Oakwood College enrolls 110 students who indicated "other" ethnicity. The following colleges and universities enrolled more than 50 non-resident aliens: Bethune-Cookman College, Clark-Atlanta University, Florida Memorial College, Huston-Tillotson College, Oakwood College, Saint Augustine's College, Spelman College, Wiley College and Xavier University. The number of non-resident aliens enrolled at the 39 member institutions increased from 858 in 1994 (or 1.6% of the total for that year) to 1,149 in 1996 (or 2.1% of the total).

TRANSFER STUDENTS

Enrollment in The College Fund's colleges and universities in Fall 1996 included 2,701 students who had transferred from other colleges, nearly the same number as in Fall 1994 (2,667). Appendix E shows the number of transfer students for each institution and whether they had transferred from two-year or four-year, predominantly Black or predominantly White institutions. Comparable numbers of students transferred from two-year institutions (1,016) and

from four-year institutions (1,034). Among the students transferring from four-year institutions, 548 transferred from predominantly White colleges and 473 transferred from predominantly Black colleges.

ENROLLMENT BY GENDER

Approximately 60% of students attending College Fund member colleges and universities are female, as shown in Appendix F. Two colleges, Bennett and Spelman, enroll only female students, and Morehouse College enrolls only male students. Only two coeducational colleges and universities, the Interdenominational Theological Center and Livingstone College, enrolled more males than females. For 60% of African American enrollment to be female, however, is not unusual in colleges and universities today. In 1995 62% of African Americans enrolled in colleges and universities nationwide (including both two-year and four-year institutions, as well as graduate institutions) were women, as shown in Table 5.

GEOGRAPHICAL DIVERSITY

Three-fourths of students who attend The College Fund's member colleges and universities hail from the southeastern United States. Nonetheless, large numbers of students are coming from urban centers outside the Southeast. For example, 474 students came from Los Angeles, 80 from Denver, 933 from Chicago, 133 from Indianapolis, 637 from Detroit, 113 from Newark, 405 from New York City, 162 from Cincinnati, 198 from Cleveland, 371 from Philadelphia, and 159 from Milwaukee. Appendix G presents a geographical distribution for each institution by state and Table 6 summarizes enrollment for the 15 states sending the largest numbers of students.

Table 6
States Sending Largest Numbers of Students to College Fund Institutions in 1983, 1994, and 1996

State	1983	1994	1996	% Change 1983 - 1996
Alabama	3,056	3,798	3,773	23%
California	733	2,066	2,031	177%
Florida	3,781	4,623	4,581	21%
Georgia	5,460	6,169	7,281	33%
Illinois	1,445	1,804	1,554	8%
Louisiana	2,344	3,684	3,643	55%
Michigan	1,025	1,345	1,106	8%
Mississippi	1,457	2,293	1,162	-20%
New York	1,452	2,210	2,109	45%
North Carolina	3,492	4,117	3,414	-2%
Ohio	772	1,116	1,111	44%
South Carolina	3,903	4,690	4,583	17%
Tennessee	2,051	2,590	2,257	10%
Texas	2,214	2,791	2,774	25%
Virginia	1,803	1,948	2,050	14%

The number of students from California has nearly tripled since 1983. Louisiana, New York and Ohio also saw large percentage increases (55%, 45% and 44%, respectively). The College Fund also has launched a campaign to attract students from cities coast-to-coast, and the number of students hailing from each of these campaign cities is presented in Appendix H. Cities contributing at least 500 students include the following: Birmingham (1,158 students); Little Rock (567 students); Washington, DC (525 students); Miami (1,593 students); Atlanta, (2,364 students); Chicago (933 students); New Orleans (2,084 students); Detroit (637 students); Columbia, SC (705 students); Memphis (1,385 students) and Richmond (516 students). Cities sending more students to the entering class of 1996 than to the entering class of 1994 include: Birmingham, Alabama; Wilmington, Delaware; San Francisco, California; Atlanta, Augusta and Columbus, Georgia; Baltimore, Maryland; Boston, Massachusetts; Columbia, Denmark and Orangeburg, South Carolina; Jackson, Tennessee; Austin, Houston and San Antonio, Texas; and Richmond, Virginia.

Figure 1 summarizes the regional distribution of students enrolled in member colleges in Fall 1996.

ADMISSIONS

APPLICATION PROCESS

Applications to the freshman class in The College Fund's member colleges have been increasing steadily over the past decade, as shown in Table 8. Between 1986 and 1996 the number of applications increased by 70%, from 36,199 to 61,640. Figure 2 illustrates the trends in applications, admissions and enrollment at College Fund member institutions from 1986 to 1996. Numbers of applicants, admitted applicants, and enrolled students for individual member colleges and universities are shown in Appendix I.

Several colleges and universities have experienced dramatic increases in applicants. For example, Benedict College, Florida Memorial College, Morris Brown College and Wilberforce University all received at least 1,000 more applications for the class of 1996 than they did for the class of 1994. Barber-Scotia College, Bethune-Cookman College, and Tuskegee University received at least 500 more applications in 1996 than they received in 1994.

Table 7
Freshman Applications, Admissions and Enrollment
At College Fund Institutions: Selected Years from 1986 to 1996

Year	Completed Applications	# Offered Admission	% Applicants Admitted	Number Enrolled	% Admitted Students Enrolled
1986	36,199	25,865	71%	12,116	47%
1988	44,783	30,376	68%	13,617	45%
1990	48,195	33,129	69%	13,930	42%
1992	56,796	38,545	68%	14,611	38%
1994	60,299	38,770	64%	13,581	35%
1996	61,640	40,244	65%	13,535	34%

Table 7 illustrates that the number of applicants who were offered admission increased by 56% over the past decade. But, with the spectacular increases in completed applications, the percent of applicants who were admitted declined from 71% in 1986 to 65% in 1996.

The percent of admitted students who enrolled declined over the past decade. In 1986, 47% of applicants admitted to member institutions enrolled, compared to 34% in 1996. Comparable numbers of accepted freshmen enrolled in Fall 1996 (13,535) and in Fall 1994 (13,581). Freshman enrollment was 12% higher in 1996 than in 1986 (13,535 versus 12,116) but 7% lower than in 1992 (14,611).

DEGREES

The number of bachelor's degrees awarded by College Fund member institutions is continuing to increase. Between 1989-90 and 1995-96 the number of bachelor's degrees awarded increased by 43%, from 4,936 to 7,052. This increase in the number of degrees awarded is particularly impressive when compared to the 9% increase in overall enrollment during the same time period (from 49,816 in 1990 to 54,317 in 1996).

Table 8 shows that the number of bachelor's degrees awarded to African Americans by HBCUs increased between 1989-90 and 1993-94 at a faster rate (46.7%) than at colleges and universities nationwide (40.6%).

Table 8

AREAS OF STUDY OF BACHELOR'S DEGREE RECIPIENTS

Although the number of bachelor's degrees awarded to graduates of College Fund colleges and universities since 1989-90 increased by 43%, some fields of study have experienced even greater increases. Table 9 shows that, between 1989-90 and 1995-96, the number of bachelor's degrees awarded increased by 85% in Biology, 98% in Education, 78% in the Humanities, 67% in Protective Services, 53% in Physical Sciences, 53% in Social Sciences, and 133% in Psychology. The only field that experienced a decline was Health Areas, which had 15% fewer graduates in 1995-96 than in 1989-90. Over this period the number of degrees awarded in computer science increased by only 3% and the number awarded in business and management increased by 8.2%.

TOTAL	4,936		5,938		6,901		7,052		42.9%

The number of bachelor's degrees awarded in each field by each College Fund college and university is shown in Appendix R. Among the 590 graduates in Biological Sciences, 145 (or 25%) were from Xavier University, 46 from Shaw University, 43 from Tuskegee University and 42 from Morehouse College. Morehouse had the largest number of graduates in Business and Management (147), followed by Clark-Atlanta University (118). Clark-Atlanta also graduated 72 of the 299 bachelor's degree recipients in Communications. The largest number of bachelor's degrees in Education were awarded by Florida Memorial College (111), Miles College (58), Clark-Atlanta University (52) and Bethune Cookman College (51). The majority of the 182 degrees in the Health Areas were from Dillard University (64) and Tuskegee University (40). Together Spelman and Morehouse Colleges accounted for nearly a third of the Humanities graduates, with 83 and 50 graduates, respectively. Xavier and Spelman led the way for graduates in the Physical Sciences, with 82 and 40 students, respectively. Spelman and Morehouse were also strongly represented by degrees in Psychology, with 85 and 65, respectively. Graduates in Protective Services and Criminal Justice were primarily from Shaw University (45), Bethune Cookman College (30), and Saint Augustine's College (28). Tuskegee University graduated 36 students in Agriculture, 11 in Architecture, and 134 in Engineering.

How do the bachelor's degree fields of graduates of The College Fund's member colleges compare to those of graduates from other colleges and universities? Table 10 shows the major fields of African American, White, Hispanic and Asian students earning bachelor's degrees from U.S. colleges and universities in 1994-95.

Source: U.S. Department of Education, IPEDS Completions Survey

Compared to African Americans earning degrees from all U.S. colleges and universities, the graduates of College Fund institutions tend to be more heavily concentrated in the Biological Sciences, Education, the Humanities and the Social Sciences. About one-fourth of graduates from College Fund institutions receive their degrees in Business and Management. Figure 3 compares the distribution of African American bachelor's degree recipients from College Fund institutions with the distribution of African American bachelor's degree recipients nationwide.

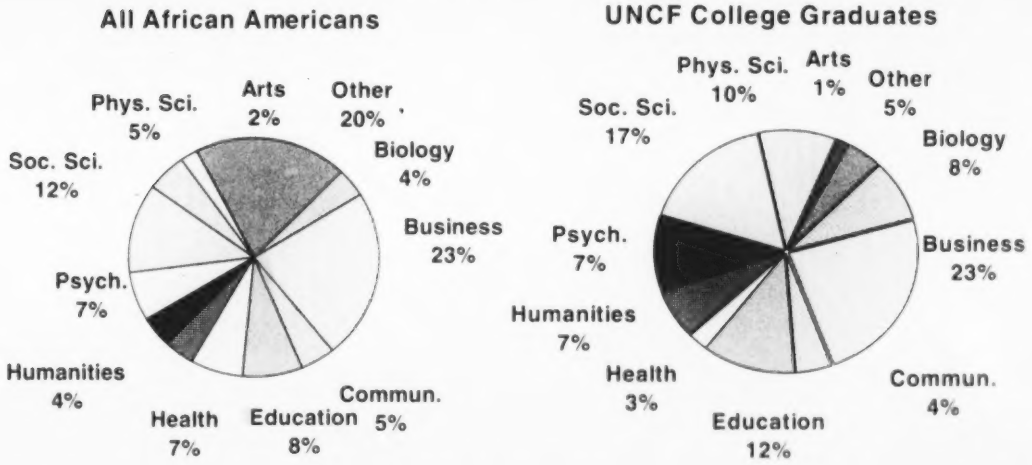
Figure 3

Bachelor's Degree Fields of College Fund College Graduates (1995-96) and All African American College Graduates (1994-95)



GRADUATE AND PROFESSIONAL DEGREES

A total of 412 Master's degrees were awarded by six member institutions in 1995-96. Clark-Atlanta University awarded two-thirds (280) of the total. Other institutions awarding Master's degrees were Tuskegee University (49), Fisk University (31), Xavier University (31), the Interdenominational Theological Center (21), and Livingstone College (2). Five institutions awarded 183 professional degrees: Interdenominational Theological Center (75), Virginia Union University (45), Tuskegee University (44), Livingstone College (13), and Clark-Atlanta (6). Three institutions awarded doctoral degrees: Clark-Atlanta University (21), Virginia Union University (8) and the Interdenominational Theological Center (4). Tables showing the fields in which these degrees were earned are found in Appendix S (Master's degrees), Appendix T (professional degrees) and Appendix U (doctoral degrees).

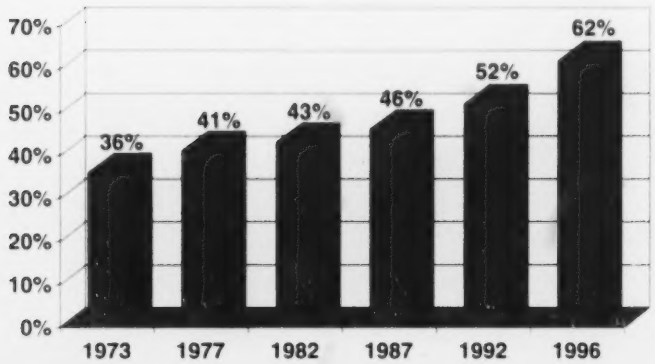
FACULTY AND STAFF

ACADEMIC PREPARATION, GENDER AND RACE/ETHNICITY OF FACULTY

The percent of full-time College Fund faculty members with earned doctoral degrees has increased dramatically since 1973, as shown in Figure 4. Sixty-two percent of faculty in College Fund colleges and universities had earned doctorates in the Fall of 1996, an increase from the 58% reported just two years earlier. In several institutions, notably Clark-Atlanta University, Edward Waters College, the Interdenominational Theological Seminary, Spelman College and Xavier College, more than 80% of faculty hold doctorates. Appendix K shows the number of full-time faculty at each institution by gender and highest degree. Although male faculty continue to outnumber female faculty, there has been a slight increase in the number of female faculty (from 1,229 to 1,241) and a slight decrease in the number of male faculty (from 1,931 to 1,887) since Fall 1994. The faculties of the two colleges that enroll only female students, Bennett and Spelman, are more than 60% female, while the faculties of all other institutions are less than half female.

Figure 4
Trends in the Percent of Faculty
at College Fund Institutions with Doctorates:
1973 to 1996



The high level of academic preparation of faculty members at College Fund institutions compares very favorably to the percentage of faculty members with doctorates in all private four-year comprehensive and liberal arts institutions (60%). Table 11 shows that, nationwide, a higher percentage of male faculty than female faculty have an earned doctorate, and this is also true in The College Fund's member colleges and universities. However, while 65.5% of male faculty in private comprehensive and liberal arts institutions across the country hold doctorates, 68% of male faculty at College Fund institutions do. Among women, 53% of faculty at College Fund institutions hold doctorates, compared with 50.8% of female faculty nationwide.

Source: National Study of Postsecondary Faculty, 1993

Table 12 shows that greater than 40% of faculty members in America's private four-year comprehensive and liberal arts institutions are female [the 22,594 female faculty represent 38.2% of male and female faculty combined]. In College Fund member institutions, 40% of faculty members are female. Appendix J shows the number of African American and non-African American faculty in each institution by gender. Overall, 32% of College Fund college faculty are African American males, 27% are African American females, 28% are non-African American males, and 13% are non-African American females. Therefore, while College Fund colleges and universities primarily serve African American students, their faculty is racially diverse as well as balanced by gender, with 41% of their faculty members not identifying themselves as African American and 40% of faculty being female.

FACULTY RANK AND TENURE

Faculty at College Fund institutions are broadly distributed by rank (see Table 12). Among male faculty, 22.6% are full professors, 26% are associate professors, 36.1% are assistant professors and 14.3% are instructors. Among female faculty, 14.6% are full professors, 20.5% are associate professors, 39.9% are assistant professors, and 21.2% are instructors. Table 12 shows that male faculty tend to have attained higher academic ranks than their female

BEST COPY AVAILABLE

colleagues, both at College Fund institutions and at private four-year comprehensive and liberal arts institutions nationwide. In addition, the percentage of faculty who are full professors is smaller at College Fund institutions (19.4%) than at similar institutions nationwide (28.3%). The faculty distribution by rank for each College Fund college and university is shown in Appendix M.

Table 12
Academic Rank of Regular, Full-Time Faculty at All Private Four-Year Comprehensive and Liberal Arts Institutions in Fall 1992, by Race and Sex

Academic Rank	African American		All Faculty		College Fund Faculty (Fall 1996)	
	Male	Female	Male	Female	Male	Female

Total	1,158	996	36,609	22,594	1,887	1,241

Source: National Study of Postsecondary Faculty, 1993

Corresponding to the smaller percentage of full and associate professors at College Fund institutions is the fact that only 25% of faculty across College Fund institutions are tenured (see Appendix L). This percentage is relatively low when compared to the estimate of 52% tenured across all American private four-year comprehensive and liberal arts institutions (National Study of Postsecondary Institutions, 1993). However, the percent of tenured faculty varies widely by college. Appendix L shows that the percentage of faculty with tenure is greater than 40% at Clark-Atlanta University, Fisk University, the Interdenominational Theological Center, Johnson C. Smith University, Morris Brown College, Spelman College, Stillman College, Talladega College and Wilberforce University.

FACULTY SALARIES

Salaries for faculty at College Fund institutions are relatively low when compared to the average for faculty at other similar private institutions nationwide. Table 13 shows the average

BEST COPY AVAILABLE

salaries for faculty by rank for all private four-year comprehensive and liberal arts institutions and for College Fund institutions.

Table 13
Average Salaries for Faculty at Private Four-Year Comprehensive and Liberal Arts Institutions and College Fund Institutions by Academic Rank

	All Private Four-Year Comprehensive and Liberal Arts Institutions (Fall 1992)	College Fund Institutions (Fall 1996)
Academic Rank	Salary	Salary*
Full Professor	$59,715	$46,794
Associate Professor	$49,182	$37,712
Assistant Professor	$40,663	$32,424
Instructor	$33,634	$26,256

Source: National Study of Postsecondary Faculty, 1993
* weighted average based on number of faculty at each member institution

The average salary of $46,794 for full professors at College Fund institutions lags behind the average of $59,715 for full professors at similar institutions nationwide. The average salary for College Fund faculty at other ranks also lags behind the average salaries for their colleagues at other institutions, although the gap narrows for instructors. Average salaries for faculty at each College Fund member institution are shown in Appendix N.

STAFF COMPOSITION

Overall, staff size has increased only slightly in College Fund institutions during the 1990s. While member colleges and universities employed 9,595 staff in 1992, they employed 10,098 faculty, administrators and support staff in 1996, an increase of 503 employees. Three hundred thirty of these additional staff members were administrators, 40 were faculty members, and 133 were support personnel. Table 15 shows that, in 1996, 25% of staff employed by College Fund institutions were administrators. The number of administrators has increased slightly at all levels since 1992. In 1996, 4% of College Fund institution staff were senior administrators, 10% were middle-level administrators, and 11% were other administrators. Faculty comprise 31%, and support personnel 45%, of total personnel at College Fund member institutions. Appendices O and P show the staff composition of each institution for fall 1996.

STUDENT FINANCIAL AID

THE NEED FOR FINANCIAL AID

The need for financial aid is particularly high among students attending College Fund colleges and universities. While over half of all students attending four-year colleges, and over two-thirds of African Americans attending four-year colleges, receive some form of financial aid, 90.8% of students attending College Fund colleges and universities receive aid.

Other Loans	2,232	4%	$7,805	2%	$3,497
Other Grants	6,492	12%	$16,171	4%	$2,491
TOTAL			$401,267		

The Stafford Loan program is by far the largest source of financial aid, both in terms of the number of students it serves and the total amount of aid awarded. More than three-fourths of students attending College Fund colleges and universities receive Stafford Loans, and the more

BEST COPY AVAILABLE

than $175 million awarded through this program represents 44% of the aid provided to College Fund students. The average Stafford Loan awarded to College Fund students in 1995-96 was $4,242. More than half of College Fund students receive Pell Grants, with an average grant of $1,784 in 1995-96. The most generous grants were to holders of ROTC scholarships, who received an average of $7,287 in 1995-96; however, only 209 students received these scholarships.

FINANCIAL AID TRENDS

While most student financial aid programs served increasing numbers of students at member colleges during the 1990s, two programs served fewer students in 1995-96 than in 1989-90. Table 16 shows that 20% fewer students participated in College Work-Study programs in 1995-96 than in 1989-90. In addition, the SEOG program served 6% fewer students. On the other hand, Stafford Loans have burgeoned, with 75% more students receiving these loans in 1995-96 than in 1989-90. Institutional scholarships were also made available to 20% more students during this time period.

Table 16
Number of College Fund Students Receiving Aid from Various Sources

Type of Aid	1989-90	1991-92	1993-94	1995-96	% Change 1989 to 1995

Pell Grants	29,944	31,276	32,373	30,493	2%
College Work-Study	15,794	13,661	12,289	12,588	-20%
SEOG	15,409	15,800	16,502	14,434	-6%
State Scholarships	13,560	15,850	16,660	16,081	19%
Institutional Scholarships	12,773	13,944	17,242	15,342	20%

The total amount of aid awarded to students attending College Fund institutions increased during the 1990s under all but the College Work-Study program. While Work-Study funds were down 12%, the amount of Stafford Loans increased by 210% and the amount of Institutional Scholarships increased by 102%. In contrast, Table 17 shows that the growth in the Pell Grant and SEOG programs did not keep pace with an average annual increase of 3.5% in the Consumer Price Index during this period, and the increase in state scholarship barely exceeded the total increase in the CPI index.

Table 17
Total Amount of Aid (in 000s) Awarded to College Fund Students From Various Sources

Type of Aid	1989-90	1991-92	1993-94	1995-96	% Change 1989 to 1995
Stafford Loans	$56,808	$83,429	$120,707	$175,871	210%
Pell Grants	$50,340	$55,912	$56,183	$54,400	8%
College Work-Study	$15,258	$15,824	$14,026	$13,413	-12%
SEOG	$14,038	$14,167	$15,427	$14,434	3%
State Scholarships	$19,584	$19,545	$21,730	$26,206	34%
Institutional Scholarships	$24,711	$32,769	$42,126	$49,944	102%

The average aid award for each source increased between 1989-90 and 1995-96, as shown in Table 18. However, only Stafford Loans and Institutional Scholarship programs have provided student funds sufficient to keep pace with the rising cost of attending college in the latter half of the 1990s. The final column of Table 18 shows the average amount of each type of aid provided to all financial aid recipients nationwide. For each type of aid, the average aid award for students at College Fund institutions is slightly higher than the average for students in all U.S. colleges and universities.

Table 18
Average Amount of Financial Aid Awarded to College Fund Students From Various Sources

Type of Aid	1989-90	1991-92	1993-94	1995-96	% Change 1989 to 1995	All U.S. Students 1995-96 *

COLLEGE COSTS

Students attending College Fund colleges and universities in 1995-96 incurred substantially lower college costs than resident students at other four-year private colleges and universities. Figure 6 shows that total average costs for students at College Fund colleges were $12,575

BEST COPY AVAILABLE

compared with total costs for students at all four-year private colleges of $20,361. The lower costs for College Fund college students were due primarily to lower tuition. While the average tuition at all four-year private institutions was $12,823, it was only $6,355 for College Fund colleges. Room and board costs at College Fund colleges and universities were also lower ($3,604) than the average at all four-year private colleges ($5,361). The average cost of books ($600) and of transportation and personal expenses ($1,821) was comparable for College Fund students and students at all four-year private colleges. Room and board charges at private colleges nationally are about 44% higher than they are at College Fund member institutions.

Costs have increased modestly at College Fund colleges and universities since 1994-95. Tuition has risen from an average of $5,617 in 1994-95 to $6,355 in 1995-96, an average increase of $738, or 13%. Room and board increased from $3,252 to $3,720, or $352.

INSTITUTIONAL FINANCES

REVENUES

Sources of revenue for member institutions have remained virtually unchanged in terms of their relative importance over the past decade, as shown in Table 17. Tuition and fees, government support and private gifts remain the three most important sources of revenue, together accounting for 82% of all revenues at College Fund colleges and universities. In 1995-96, tuition and fees provided 37% of revenue, government support 26%, and private gifts 19%. Endowment income accounted for 3% of revenues, auxiliary enterprises 11%, and other income 4%.

Table 19
Trends in Source of Revenue for College Fund Institutions: 1985-86 to 1995-96
(by percent of total revenue)

Source of Revenue	1985-86	1987-88	1989-90	1991-92	1993-94	1995-96
Tuition & Fees	38%	36%	35%	36%	38%	37%
Government	20%	22%	27%	28%	28%	26%
Private Gifts	17%	19%	18%	17%	17%	19%
Endowment Income	4%	4%	4%	3%	2%	3%
Auxiliary Enterprises	16%	16%	14%	13%	13%	11%
Other Income	3%	3%	2%	3%	2%	4%

Appendix Y reports revenues and expenditures for each institution for 1993-94 and 1995-96, and Appendix Z shows the percent of total revenue from each source for each institution. Tuition and fees generally accounted for 30% to 50% of total revenues. Government support varied widely, accounting for only 1% of total revenues at the Interdenominational Theological Seminary but more than 40% at some other institutions. Federal grants and contracts far exceeded state and local support for most institutions; all but three colleges received more than a million dollars from the federal government in 1995-96.

College Fund alumni provided more than $10 million in private gifts to their colleges and universities in 1995-96. Appendix AA shows alumni contributions for each institution. Of the 265,282 living alumni, over 32,000 (or 12%) contributed during the year, with an average contribution of $318.

Table 20 shows the percentage of total revenues received from various sources for all private colleges and universities in the United States in 1995-96. Overall, private colleges and

Table 20
Source of Revenue at Private Colleges and Universities Nationwide: 1995-96

BEST COPY AVAILABLE

universities receive a larger percentage of their overall revenues from tuition and fees (42%) than do College Fund colleges and universities (37%). On the other hand, private colleges and universities nationwide receive smaller proportions of their revenues from government (17%) and private gifts (9%) than do College Fund colleges and universities, which receive 26% of total revenues from government and 19% from private gifts. Auxiliary enterprises are a larger source of revenue (22%) for private colleges and universities nationwide than they are for College Fund colleges and universities (11%).

EXPENDITURES

At College Fund colleges and universities, expenditures for instruction have risen from an average 22% of total expenditures in 1993-94 to an average 26% in 1995-96, as shown in Table 21. Conversely, expenditures for financial aid as a percentage of total expenditures have fallen from a high of 20% in the early 1990s to only 15% in 1995-96. Expenditures for research have climbed to 5% of total expenditures, even though only 14 institutions budgeted funds for research. More than a million dollars was spent on research in 1995-96 at the following institutions: Benedict College, Clark-Atlanta University, Fisk University, Morehouse College, Spelman College, Tougaloo College, Tuskegee University and Xavier University.

Public Service expenditures, including funds for maintenance of college libraries, have increased to 5% of total expenditures, up from 2% in 1993-94. Universities with sizable expenditures for public service and libraries include Clark-Atlanta, Dillard, and the Interdenominational Theological Center. The percent of expenditures allocated to plant maintenance, student services and auxiliary enterprises has remained stable during the 1990s. Academic support, including developmental programs, has shown a slight decline in relative expenditures since 1993-94, from

Table 21
Trends in Current Fund Expenditures for College Fund Institutions: 1985-86 to 1995-96
(by percent of total expenditures)

7% to 4%. Table 22 shows information on expenditures at private colleges and universities in the United States in 1995-96. College Fund colleges and universities are typical of private

BEST COPY AVAILABLE

institutions nationwide from the standpoint of spending slightly more than a quarter of their revenues on instruction. Expenditures for research, however, constitute a smaller proportion of total expenditures at College Fund institutions (5%) than at the average private college or university (8%). The percent of total expenditures allocated to student aid by College Fund colleges and universities (15%) was higher than for private institutions nationwide (11%), although this share of expenditures for College Fund institutions has been declining in recent years. Institutional support expenditures (which include funding of the registrar's office and other administrative programs) claim a higher percentage of revenues (18%) at College Fund colleges and universities than at the average U.S. private institution (10%).

ENDOWMENT

Endowment funds for College Fund colleges and universities continued to grow substantially between 1993-94 and 1995-96. Total endowment for all member institutions exceeded $600 million in 1995-96, with Spelman College attaining an endowment of $142 million and Morehouse College $80 million. The average endowment for all member colleges and universities was just over $16 million in 1995-96. Appendix CC shows the market value of endowment funds for each member institution. Table 23 shows that 23 of the 39 College Fund colleges and universities have endowments valued at under $10 million while nine colleges hold endowments between $10 million and $20 million. Three institutions have endowments of $20 million to $30 million while the endowments for four institutions exceed $30 million. In addition to Spelman and Morehouse Colleges, the institutions with the highest endowments include Tuskegee University and Dillard University.

COMPUTER HARDWARE AND SOFTWARE

The College Fund annual survey administered in Spring 1997 requested certain pieces of information for the first time. One of the new requests was for information on administrative and research computer hardware and software. This information is included in Appendix FF. All member colleges and universities provided information on their administrative computer, which was generally a mainframe. The most common administrative computer model is an IBM AS-400, employed at 11 member colleges and universities. Common administrative software for student records management include Powerhouse, POISE and Champlain. Computers used for research purposes include IBM or Compaq Pentium machines. The most commonly used software package for research is the Statistical Package for the Social Sciences (SPSS), followed by the Statistical Analysis System (SAS), and the Microsoft Products Excel and Access. Lotus, Harvard Graphics, Quattro Pro and dBase IV are also employed for research purposes.

The annual survey also requested information on Internet access, as well as e-mail addresses for the president and other administrative staff. A summary of this information is shown in Appendix GG. At the time the survey was completed in Spring 1997 all but four colleges and universities reported having Internet access, and most provided an Internet web site Uniform Resource Locator address.

OTHER NEW INFORMATION

The 1997 survey also requested information on outstanding alumni achievements. While 21 colleges and universities submitted impressive lists of alumni and their achievements, this information is not published in this report since the lists would not be complete without the participation of the remaining colleges and universities. Similarly, information on the graduate school or professional school plans of recent graduates does not appear in this report due to non-participation of some colleges and universities. The 25 colleges and universities that did submit this information, however, provided assessments of the graduate and professional school plans of both their most recent graduates (those earning degrees in 1995-96) and graduates from the preceding five years. The inclusion of these questions on future surveys is uncertain, and the staff at Frederick D. Patterson Research Institute would welcome opinions about the utility and ease of obtaining this information.
